

Browser Extension Security Audit

Control the software operating inside your business browser

1 Identify

- | | |
|--|---|
| ☐ Extension name and ID | ☐ User or device |
| ☐ Browser and version | ☐ Date installed |
| ☐ Developer | ☐ Business owner |
| ☐ Store link / source | ☐ Business purpose |

2 Review Permissions

- | | |
|--|---|
| ☐ All-sites access | ☐ Clipboard access |
| ☐ AI-chat page access | ☐ Downloads management |
| ☐ Browsing history | ☐ Private browsing |

3 Review Trust

- | | |
|--|---|
| ☐ Developer identity verified | ☐ Ownership history reviewed |
| ☐ Privacy policy checked | ☐ Store status confirmed |
| ☐ Security contact available | ☐ No security warnings found |

4 Decide

- | | |
|--|--|
| ☐ Approve | ☐ Remove |
| ☐ Approve (restricted access) | ☐ Block by ID |
| ☐ Replace | ☐ Escalate for review |

5 Enforce and Review

- | | |
|--|---|
| ☐ Policy applied | ☐ Related extensions checked |
| ☐ Users notified | ☐ Review date recorded |
| ☐ New installations blocked | ☐ Credential rotation done if needed |

Browser extensions are software—discover, justify, restrict and review them.
